

# The External Evaluation Report of a Doctoral Study Domain

(prof. dr. Ajda Fošner, University of Primorska, Slovenia)

## Introduction

**Type of Evaluation:** Periodical External Evaluation

**Department:** „Alexandru Ioan Cuza“ University Of Iasi, Doctoral study domain Mathematics

**Period of the evaluation visit:** September 9 – September 17 2021

**Committee:** Eduard Marius Crăciun (Coordinator), Ajda Fošner (International expert), Sebastian-Aurelian Ștefăniță (PhD student)

Alexandru Ioan Cuza University of Iași is the oldest higher education institution in Romania. Since 1860, the university has been carrying on a tradition of excellence and innovation in the fields of education and research. With over 24.000 students and 716 academic staff, the university enjoys high prestige at national and international level and cooperates with 504 universities world-wide.

The Faculty of Mathematics has been functioning since 1860, when Alexandru Ioan Cuza University of Iasi was founded. Initially, it was a department within the Faculty of Philosophy, then within the Faculty of Sciences, and afterwards it became an independent faculty. Throughout the years, the great tradition maintained by the Faculty of Mathematics of Iași has contributed to new research directions initiated by famous personalities (A. Myller, O. Mayer, C. Popovici, S. Sanielevici, M. Haimovici, A. Haimovici, D. Mangeron). The mathematicians of the school of Iași, who were also outstanding professors, have placed the faculty amongst the most prestigious in the country.

The first doctorate in pure mathematics at a Romanian university was obtained at the Faculty of Mathematics in Iași, in 1920, by Octav Mayer under the guidance of Professor Alexandru Myller. Currently, the doctoral studies within the Doctoral School of Mathematics are organized based on the National Education Law no. 1/2011, of Law no. 49/2013, of the Code of doctoral university studies, approved by Government Decision 681/2011, a document that constitutes the legal framework that regulates the organization and implementation of doctoral university study programs in Romania.

The Doctoral School of Mathematics currently has 17 members, PhD supervisors with experience in the following areas of research: algebraic geometry, mathematical analysis, commutative algebra, differential geometry, geometric topology, group theory, number theory, partial differential equations, probability and statistics, mechanics. The Doctoral School is run by the director, prof. Univ. dr. Sebastian Anița.

The doctoral studies organized by the Faculty of Mathematics has a solid and renowned tradition at national and international level. The superior quality of education and research in the Doctoral School of Mathematics is recognized nationally and worldwide, as evidenced by the numerous scientific collaborations materialized in

joint papers, in internships as professors or guest researchers, in participation in scientific events and collaborations on teaching materialized in exchanges of students and teachers.

## Methods used

Before the evaluation visit we analysed:

- the internal evaluation report of the doctoral study domain under review and its Annexes (those, available in English);
- documents, data and information available on the IOSUD/Doctoral School(s) website.

Before the evaluation visit we also had an online meeting (9 September 2021) with all evaluation panel members for instructions.

During the evaluation visit, we had the online discussions with:

- doctoral student in the doctoral study domain under review;
- employers of the graduates in the doctoral study domain under review;
- school officials of the Doctoral School(s) in which the doctoral study domain under review is operating;
- doctoral advisors in the doctoral study domain under review;
- representatives of the various structures of the IOSUD/Doctoral School(s) in which the doctoral study domain under review is operating:
- The Council of the Doctoral School, the University Senate, the Board of Directors, the Quality Assessment and Assurance Commission, the Quality Assurance Department, the Ethics Commission (including with the student representatives of these structures).

We also had a technical meeting with all evaluation panel members to identify specific issues that needed to be clarified during the evaluation. Visit of the buildings included in the institution's property was not possible because of the pandemic situation and, as a consequence, the remote evaluation.

On the last day of the evaluation we had an online meeting with all evaluation panel members for conclusions and a meeting with representatives of the institution under review to discuss the main recommendations.

## Analysis of ARACIS's performance indicators

### Domain A. INSTITUTIONAL CAPACITY

A general description of the field as well as its particularities are highlighted in this section. Here we used analysis of the internal evaluation report and information available on IOSUD website.

#### Criterion A.1. The administrative, managerial institutional structures and the financial resources

Standard A.1.1. The institution organizing doctoral studies (IOSUD) has implemented the effective functioning mechanisms provided for in the specific legislation on the organization of doctoral studies.

The analysis of the standard is based on the self-assessment file submitted to ARACIS as well as on the discussions held online during the visit September 9-17, 2021.

**Performance Indicator A.1.1.1.** The existence of specific regulations and their application at the level of the Doctoral School of the respective university doctoral study domain:

- (a) the internal regulations of the Doctoral School;
- (b) the Methodology for conducting elections for the position of director of the Council of doctoral school (CSD), as well as elections by the students of their representative in CSD and the evidence of their conduct;
- (c) the Methodologies for organizing and conducting doctoral studies (for the admission of doctoral students, for the completion of doctoral studies);
- (d) the existence of mechanisms for recognizing the status of a Doctoral advisor and the equivalence of the doctoral degree obtained abroad;
- (e) functional management structures (Council of the doctoral school), giving as well proof of the regularity of meetings;
- (f) the contract for doctoral studies;
- (g) internal procedures for the analysis and approval of proposals regarding the training for doctoral study programs based on advanced academic studies.

„Alexandru Ioan Cuza“ University Of Iasi has implemented the efficient functioning mechanisms provided in the specific legislation on the organization of doctoral studies. All required regulations exist and are applied.

Recommendations: /

**The indicator is fulfilled.**

**Performance Indicator A.1.1.2.** The doctoral school' Regulation includes mandatory criteria, procedures and standards binding on the aspects specified in Article 17, paragraph (5) of the Government Decision No. 681/2011 on the approval of the Code of Doctoral Studies with subsequent amendments and additions.

The regulations of the doctoral school provide criteria, procedures, and mandatory standards in regard to the following aspects:

- the admission of new doctoral advisors as well as all other necessary regulations;
- the decision-making process in regard to the opportunity, the structure, and the content of the training program of the doctoral studies;
- the procedures regarding changing a doctoral advisor and guidelines regarding conflict mediation;
- the circumstances in which the doctoral program can be interrupted;
- the prevention of fraud in scientific research, including instances of plagiarism;
- ensuring the access to research resources;
- the doctoral students' attendance obligations, according to a methodology authored by the Ministry of Education, Research, Youth, and Sport.

Recommendations: /

**The indicator is fulfilled.**

Standard A.1.2. The IOSUD has the logistical resources necessary to carry out the doctoral studies' mission.

The analysis of the standard was based on the self-assessment file submitted to ARACIS as well as on the meetings held during the visit September 9-17, 2021.

**Performance Indicator A.1.2.1.** The existence and effectiveness of an appropriate IT system to keep track of doctoral students and their academic background.

*Within IOSUD - „Alexandru Ioan Cuza” University of Iași there is implemented an adequate computer system for the record of doctoral students and their academic path, called eSims. It has been permanently completed and improved by the specialists employed within the Department of Statistics and Computer of IOSUD-UAIC, in order to better meet the needs of the higher education institution. According to the Project Completion Protocol, the computer system can be used by two categories of users: occasional users (students and teachers), who have access to individual data and use the system when they need information, and “professional” users, who use the application on a daily basis to carry out student management activities (secretariat, databases faculty and university management, etc.).*

Recommendations: /

**The indicator is fulfilled.**

**Performance Indicator A.1.2.2.** The existence and use of an appropriate software program and evidence of its use to verify the percentage of similarity in all doctoral theses.

The “Alexandru Ioan Cuza” University of Iași has shown a continuous concern for ensuring the resources necessary to verify the similarity percentage for the works elaborated by students from all three cycles of university studies, so also in terms of doctoral theses.

Recommendations: /

**The indicator is fulfilled.**

Standard A.1.3. The IOSUD makes sure that financial resources are used optimally, and the revenues obtained from doctoral studies are supplemented through additional funding besides governmental funding.

**Performance Indicator A.1.3.1.** Existence of at least one research or institutional / human resources development grant under implementation at the time of submission of the internal evaluation file, per doctoral study domain under evaluation, or existence of at least 2 research or institutional development / human resources grant for the doctoral study domain, obtained by doctoral thesis advisors operating in the evaluated domain within the past 5 years. The grants address relevant themes for the respective domain and, as a rule, are engaging doctoral students.

In addition to the revenues from the state budget, the doctoral supervisors affiliated to the Doctoral School of Mathematics carry out, as project directors or members of the research teams, research grants won as a result of national or international competitions.

Recommendations: /

**The indicator is fulfilled.**

**Performance Indicator \*A.1.3.2.** The percentage of doctoral students active at the time of the evaluation, who for at least six months receive additional funding sources besides government funding, through scholarships awarded by individual persons or by legal entities, or who are financially supported through research or institutional / human resources development grants is not less than 20%.

Doctoral students are co-opted in the research teams of projects carried out within the Faculty of Mathematics or in external projects. Doctoral students who are members of the research teams that have participated in the elaboration of contracts in the last 5 years are:

- Paoli Roberto, asistent de cercetare în grantul H2020-MSCA-ITN-ETN Project "STARDUST-RELOADED", 2019-2022. - Melnic Alexandra, asistent de cercetare în grantul PN-III-P4-ID-PCE-2016-0011. Recommendations:

**The indicator is fulfilled.**

**Performance Indicator \*A.1.3.3.** At least 10% of the total amount of doctoral grants obtained by the university through institutional contracts and of tuition fees collected from the doctoral students enrolled in the paid tuition system is used to reimburse professional training expenses of doctoral students (attending conferences, summer schools, training, programs abroad, publication of specialty papers or other specific forms of dissemination etc.).

Many PhD students have received funding for participation in conferences, summer schools, etc. from research grants of doctoral supervisors or from the funds of the organizers of these scientific events. During the evaluated period, the doctoral students of the Doctoral School of Mathematics participated with papers, as authors and co-authors, in 74 national and international conferences.

Recommendations: /

**The indicator is fulfilled.**

## **Criterion A.2. Research infrastructure**

Standard A.2.1. The IOSUD has a modern research infrastructure to support the conduct of doctoral studies' specific activities.

The analysis of the standard is based on the self-assessment file submitted to ARACIS.

**Performance Indicator A.2.1.1.** The venues and the material equipment available to the doctoral school enable the research activities in the evaluated domain to be carried out, in line with the assumed mission and objectives (computers, specific software, equipment, laboratory equipment, library, access to international databases etc.). The research infrastructure and the provision of research services are presented to the public through a specific platform. The research infrastructure described above, which was purchased and developed within the past 5 years will be presented distinctly.

The spaces and material endowment of the doctoral school allow the realization of research activities in the field of Mathematics (computers, specific software, equipment, laboratory equipment, library, access to international databases, etc.). The spaces, equipment and book fund available to members and PhD students of the Doctoral School of Mathematics are sufficient to achieve the proposed mission and objectives. The existing information technology equipment in the Faculty of Mathematics ensures the access of all students to updated technologies, constituting a solid support for the application of the theoretical notions: 4 computer networks, 3 servers, 7 video projectors and projection screens, astronomy laboratory equipment (telescopes, CCD cameras, video cameras, cameras, binoculars, etc.), video conferencing equipment, Planetarium equipment, computer systems.

Recommendations:

Continue to update and expand research infrastructure and facilities.

**The indicator is fulfilled.**

### **Criterion A.3. Quality of Human Resources**

Standard A.3.1. At the level of each domain there are sufficient qualified staff to ensure the conduct of doctoral study program.

The analysis of the standard is based on the self-assessment file submitted to ARACIS.

**Performance Indicator A.3.1.1.** Minimum three doctoral thesis advisors within that doctoral domain, and at least 50% of them (but no less than three) meet the minimum standards of the National Council for Attestation of University Degrees, Diplomas and Certificates (CNATDCU) in force at the time when the evaluation is carried out, which standards are required and mandatory for obtaining the enabling certification.

Of the 17 active members of the Doctoral School of Mathematics, 13 (76%) fully meet the minimum standards of CNATDCU, and 4 (24%) members meet 2 of the 3 criteria (Appendix *Indeplinire standarde minimale conducatori doctorat*, Evaluation committee Report (*Raport comisia evaluare – fise autoevaluare*) and Self-assessment sheets for doctoral supervisors (*Fise autoevaluare conducatori doctorat*)).

Recommendations:

Stimulating doctoral supervisors and providing financial support for their scientific work.

**The indicator is fulfilled.**

**Performance Indicator \*A.3.1.2.** At least 50% of all doctoral advisors have a full-time employment contract for an indefinite period with the IOSUD.

Out of the total of 17 PhD supervisors in Mathematics, 15 advisors have a full-time employment contract for an indefinite period with the IOSUD, i.e. 88%.

Recommendations: /

**The indicator is fulfilled.**

**Performance Indicator A.3.1.3.** The study subjects in the education program based on advanced higher education studies pertaining to the doctoral domain are taught by teaching staff or researchers who are doctoral thesis advisors / certified doctoral thesis advisors, professors / CS I or lecturer / CS II, with proved expertise in the field of the study subjects they teach, or other specialists in the field who meet the standards established by the institution in relation with the aforementioned teaching and research functions, as provided by the law.

The disciplines in the training program based on advanced university studies related to the field are supported by professors who have the quality of doctoral supervisor with proven expertise through the lists of scientific papers and research projects.

Recommendations: /

**The indicator is fulfilled.**

**Performance Indicator \*A.3.1.4.** The percentage of doctoral thesis advisors who concomitantly coordinate more than 8 doctoral students, but no more than 12, who are themselves studying in doctoral programs<sup>3</sup> does not exceed 20%.

The indicator is fulfilled.

Recommendations: /

**The indicator is fulfilled.**

Standard A.3.2. The Doctoral advisors within the domain are carrying out a scientific activity visible at international level.

The analysis of the standard is based on the CVs from the self-assessment file submitted to ARACIS.

**Performance Indicator A.3.2.1.** At least 50% of the doctoral thesis advisors in the evaluated domain have at least 5 Web of Science- or ERIH-indexed publications in magazines of impact, or other achievements of relevant significance for that domain, including international-level contributions that indicate progress in scientific research - development - innovation for the evaluated domain. The aforementioned doctoral thesis advisors enjoy international awareness within the past five years, consisting of: membership on scientific boards of international publications and conferences; membership on boards of international professional associations; guests in conferences or expert groups working abroad, or membership on doctoral defense commissions at universities abroad or co-leading with universities abroad. For Arts and Sports and Physical Education Sciences, doctoral thesis advisors shall

---

<sup>3</sup> 3 years for the doctoral university studies with the duration stipulated at Article 159, paragraph (3), respectively 4 years for the

doctoral university studies with the duration stipulated at Article 174, paragraph (3) of the Law of national education No.1/2011 with subsequent amendments and additions, with additional extension periods approved as per Article 39, paragraph (3) of the Code of doctoral studies approved by the GD No. 681/2011 with subsequent amendments and additions.

prove their international visibility within the past five years by their membership on the boards of professional associations, membership in organizing committees of arts events and international competitions, membership on juries or umpire teams in artistic events or international competitions.

The doctoral supervisors have international visibility demonstrated by the data attached to the Self-Assessment Report.

Recommendations: /

**The indicator is fulfilled.**

**Performance Indicator \*A.3.2.2.** At least 50% of the doctoral thesis advisors in a specific doctoral study domain continue to be active in their scientific field, and acquire at least 25% of the score requested by the minimal CNATDCU standards in force at the time of the evaluation, which are required and mandatory for acquiring their enabling certificate, based on their scientific results within the past five years.

As it results from the lists of papers, doctoral supervisors are active in the scientific research (publishing scientific papers, monographs, participation on conferences etc.) obtaining more than 25% of the score required by the minimum standards.

Recommendations:

Stimulating doctoral supervisors and providing financial support for their scientific work.

**The indicator is fulfilled.**

## **Domain B. EDUCATIONAL EFFECTIVENESS**

### **Criterion B.1. The number, quality and diversity of candidates enrolled for the admission contest**

The analysis of the standard is based on the self-assessment file submitted to ARACIS as well as on the discussions held online during the visit September 9-17, 2021.

Standard B.1.1. The institution organizing doctoral studies has the capacity to attract candidates from outside the higher education institution or a number of candidates exceeding the number of seats available.

**Performance Indicator \*B.1.1.1.** The ratio between the number of graduates of masters' programs of other higher education institutions, national or foreign, who have enrolled for the doctoral admission contest within the past five years and the number of seats funded by the state budget, put out through contest within the doctoral domain is at least 0.2 or the ratio between the number of candidates within the past five years and the number of seats funded by the state budget put out through contest within the doctoral studies domain is at least 1,2.

From the information available we can conclude that the indicator is fulfilled.

In the last five years, a number of 15 students have entered the competition for admission to doctoral studies in mathematics, of which 14 are UAIC graduates who have been admitted to budgeted places. This is explained by the high averages of candidates in mathematics being encouraged to enroll in doctoral studies students with the best academic results. In conclusion, the ratio between the number of candidates in the last five years and the number of places financed from the state budget put up for competition within the field of doctoral studies is equal to 0.93.

In this case it is recommended to find ways to attract master's degree graduates from other higher education institutions in the country and abroad or to attract more candidates to the competition for admission to doctoral studies.

Recommendations:

It is recommended to find ways to attract master 's degree graduates from other (national/international) higher education institutions.

**The indicator is partially fulfilled.**

Standard B.1.2 Candidates admitted to doctoral studies demonstrate academic, research and professional performance.

**Performance Indicator \*B.1.2.1.** Admission to doctoral study programs is based on selection criteria including: previous academic, research and professional performance, their interest for scientific or arts/sports research, publications in the domain and a proposal for a research subject. Interviewing the candidate is compulsory, as part of the admission procedure.

The admission exam consists of two parts:

- a) written test and oral examination of issues from the topics approved by the Doctoral School Council and published on the website of the Doctoral School;
- b) presentation of the research project - interview .

The exam exists of one main subject and one from the field of candidate's interest. The final grade is the arithmetic mean of the grades obtained in the two tests.

Recommendations:

The admission procedures on website should be visible in an international language.

**The indicator is fulfilled.**

**Performance Indicator B.1.2.2.** The expelling rate, including renouncement / dropping out of doctoral students 3, respectively 4, years after admission<sup>4</sup> does not exceed 30%.

The indicator is fulfilled.

Recommendations: /

**The indicator is fulfilled.**

**Criterion B.2. The content of doctoral programs**

The analysis of the standard is based on the self-assessment file submitted to ARACIS, as well as on the discussions held online during the visit September 9-17, 2021.

Standard B.2.1. The training program based on advanced university studies is appropriate to improvedoctoral students' research skills and to strengthen ethical behavior in science.

**Performance Indicator B.2.1.1.** The training program based on advanced academic studies includes at least 3 disciplines relevant to the scientific research training of doctoral students; at least one of these disciplines is intended to study in-depth the research methodology and/or the statistical data processing.

The training program based on advanced academic studies includes three disciplines relevant to the scientific research training of doctoral students; all of them are intended to study in-depth the research methodology and/or the statistical data processing.

Recommendations: /

**The indicator is fulfilled.**

<sup>4</sup> 3 years for the doctoral university studies with the duration stipulated at Article 159, paragraph (3), respectively 4 years for the doctoral university studies with the duration stipulated at Article 174, paragraph (3) of the Law of national education No. 1/2011 with subsequent amendments and additions.

**Performance Indicator B.2.1.2.** At least one discipline is dedicated to Ethics and Intellectual Property in scientific research or there are well-defined topics on these subjects within a discipline taught in the doctoral program.

There is a subject *Ethics and academic integrity* that is dedicated to ethics in research and intellectual property.

Recommendations: /

**The indicator is fulfilled.**

**Performance Indicator B.2.1.3.** The IOSUD has mechanisms to ensure that the academic training program based on advanced university studies addresses „the learning outcomes”, specifying the knowledge, skills, responsibility and autonomy that doctoral students should acquire after completing each discipline or through the research activities<sup>5</sup>.

For each subject, the learning outcomes, knowledge and skills that doctoral students should acquire after completing the PhD study, are specify.

Recommendations: /

**The indicator is fulfilled.**

**Performance Indicator B.2.1.4.** All along the duration of the doctoral training, doctoral students in the domain receive counselling/guidance from functional guidance commissions, which is reflected in written guidance and feedback or regular meeting.

The doctoral students receive guidance from guidance commission, which is reflected in written guidance and feedback or regular meeting.

Recommendations: /

**The indicator is fulfilled.**

**Performance Indicator B.2.1.5.** For a doctoral study domain, the ratio between the number of doctoral students and the number of teaching staff/researchers providing doctoral guidance must not exceed 3:1.

In the field of mathematics, there are currently 9 doctoral students and 17 supervisors.

Recommendations: /

**The indicator is fulfilled.**

<sup>5</sup> Or by what the graduate should know, understand and to be able to do, according to the provisions of the Methodology of 17 March 2017 regarding inscription and registration of higher education qualifications in the National Register of Qualifications in Higher Education (RNCIS) approved by the Order No.3475/2017 with subsequent amendments and additions.

### **Criterion B.3. The results of doctoral studies and procedures for their evaluation.**

The analysis of the standard is based on the self-assessment file submitted to ARACIS, as well as on the discussions held online during the visit September 9-17, 2021.

Standard B.3.1. Doctoral students capitalize on the research through presentations at scientific conferences, scientific publications, technological transfer, patents, products and service orders.

**Performance Indicator B.3.1.1.** For the evaluated domain, the evaluation commission will be provided with at least one paper or some other relevant contribution per doctoral student who has obtained a doctor's title within the past 5 years. From this list, the members of the evaluation commission shall randomly select 5 such papers / relevant contributions per doctoral study domain for review. At least 3 selected papers must contain significant original contributions in the respective domain.

Within the past five years 18 relevant papers were published by nine students who achieved doctoral degree. We randomly selected five of them and all of them contain significant original contributions.

Recommendations: /

**The indicator is fulfilled.**

**Performance Indicator \*B.3.1.2.** The ratio between the number of presentations of doctoral students who completed their doctoral studies within the evaluated period (past 5 years), including posters, exhibitions made at prestigious international events (organized in the country or abroad) and the number of doctoral students who have completed their doctoral studies within the evaluated period (past 5 years) is at least 1.

The indicator is fulfilled.

Recommendations: /

**The indicator is fulfilled.**

Standard B.3.2. The Doctoral School engages a significant number of external scientific specialists in the commissions for public defense of doctoral theses in the analyzed domain.

**Performance Indicator \*B.3.2.1.** The number of doctoral theses allocated to one specialist coming from a higher education institution, other than the evaluated IOSUD should not exceed two (2) in a year for the theses coordinated by the same doctoral thesis advisor.

The indicator is fulfilled.

**Performance Indicator \*B.3.2.2.** The ratio between the doctoral theses allocated to one scientific specialist coming from a higher education institution, other than the institution where the defense on the doctoral thesis is organized, and the number of doctoral theses presented in the same doctoral study domain in the doctoral school should not exceed 0.3, considering the past five years. Only those doctoral study domains in which minimum ten doctoral theses have been presented within the past five years should be analyzed.

The indicator is fulfilled.

Recommendations: /

**The indicator is fulfilled.**

## **Domain C. QUALITY MANAGEMENT**

### **Criterion C.1. Existence and periodic implementation of the internal quality assurance system**

The analysis of the field is based on the self-assessment file submitted to ARACIS as well as on the discussions held online during the visit September 9-17, 2021.

Standard C.1.1. There are an institutional framework and procedures in place and relevant internal quality assurance policies, applied for monitoring the internal quality assurance.

**Performance Indicator C.1.1.1.** The Doctoral school in the respective university study domain shall demonstrate the continuous development of the evaluation process and its internal quality assurance following a procedure developed and applied at the level of the IOSUD, the following assessed criteria being mandatory:

- (a) the scientific work of Doctoral advisors;
- (b) the infrastructure and logistics necessary to carry out the research activity;
- (c) the procedures and subsequent rules based on which doctoral studies are organized;

- d) the scientific activity of doctoral students;
- e) the training program based on advanced academic studies of doctoral students;
- f) social and academic services (including for participation at different events, publishing papers etc.)

and counselling made available to doctoral students.

There are a number of IOSUD regulations and procedures through which internal quality assessment and assurance takes place, namely:

- Doctoral admission methodology 2021-2022, UAIC Doctoral School of Mathematics
- Regulation on the Organization and Conduct of the competition for admission to doctoral studies in 2021-2022
- Operational procedure regarding the online evaluation of the reports from the scientific research program of the doctoral students for the period of the state of emergency
- Operational procedure regarding the completion of doctoral studies, submission of the doctoral thesis for online public defense for the period of emergency
- Regulation on the organization and development of postdoctoral programs for advanced research
- The minimum standards for conferring the Certificate of Ability, in the field of Mathematics
- Training program based on advanced university studies
- Questionnaire for assessing the quality of doctoral studies (Annex Student evaluation questionnaire)
- Evaluation commission report
- Regulation on the organization and development of the process of obtaining the habilitation certificate
- System procedure regarding the automatic recognition by the “Alexandru Ioan Cuza” University of Iași of the quality of doctoral supervisor obtained in accredited university educational institutions from abroad
- System procedure regarding the recognition by the “Alexandru Ioan Cuza” University of the doctoral diploma and of the doctoral degree in sciences or in a professional field obtained in accredited university education institutions from abroad.

## **Criterion C.2. Transparency of information and accessibility of learning resources**

The analysis of the field is based on the self-assessment file submitted to ARACIS as well as on the discussions held online during the visit September 9-17, 2021.

Standard C.2.1. Information of interest to doctoral students, future candidates and public interest information is available for electronic format consultation.

**Performance Indicator C.2.1.1.** The IOSUD publishes on the website of the organizing institution, in compliance with the general regulations on data protection, information such as:

- (a) the Doctoral School regulation;
- (b) the admission regulation;
- (c) the doctoral studies contract;
- (d) the study completion regulation including the procedure for the public presentation of the thesis;
- (e) the content of training program based on advanced academic studies;
- (f) the academic and scientific profile, thematic areas/research themes of the Doctoral advisors within the domain, as well as their institutional contact data;
- (g) the list of doctoral students within the domain with necessary information (year of registration; advisor);
- (h) information on the standards for developing the doctoral thesis;
- (i) links to the doctoral theses' summaries to be publicly presented and the date, time, place where they will be presented; this information will be communicated at least twenty days before the presentation.

### **Criterion C.3. Internationalization**

The analysis of the field is based on the self-assessment file submitted to ARACIS as well as on the discussions held online during the visit September 9-17, 2021.

Standard C.3.1. There is a strategy in place and it is applied to enhance the internationalization of doctoral studies.

**Performance Indicator \*C.3.1.1.** IOSUD, for every evaluated domain, has concluded mobility agreements with universities abroad, with research institutes, with companies working in the field of study, aimed at the mobility of doctoral students and academic staff (e.g., ERASMUS agreements for the doctoral studies). At least 35% of the doctoral students have completed a training course abroad or other mobility forms such as attending international scientific conferences. IOSUD drafts and applies policies and measures aiming at increasing the number of doctoral students participating at mobility periods abroad, up to at least 20%, which is the target at the level of the European Higher Education Area.

University has concluded mobility agreements with universities abroad, with research institutes, with companies that carry out activities in the studied field, which aim at the mobility of doctoral students and teachers. Within the Doctoral School of Mathematics, students and graduates have benefited from training courses abroad by participating in Summer Schools and International Scientific Conferences.

## Conclusions and general recommendations

Based on the findings of the evaluation team presented in this report it is estimated that „Alexandru Ioan Cuza“ University Of Iasi is a higher education institution which provides the quality of education and scientific research for all cycles and, in particular, for doctoral studies. This is true also for the field of mathematics and is supported by the following arguments:

- Experienced and nationally and internationally recognized professors.
- The quality of scientific publications of supervisors and doctoral students.
- Support provided to doctoral students in research.

Recommendations of the evaluation team are the following:

- Ensuring material basis necessary for doctoral scientific research .
- Attracting more resources for financial support of supervisors and students to publish the results of research in prestigious journals.
- Intensifying the internationalization of doctoral studies (international guidance/support, international students, co-supervised theses, etc.).
- Increasing the number of collaborations with foreign universities (partnerships in research projects, academic consortia, consortia of doctoral schools, etc.).
- Increasing the higher number of mobilities in the field of mathematics (ingoing, outgoing).
- Attracting more young people to continue the career in mathematics.
- We strongly recommend the re-inclusion of the admission to master's degree programs taking into account the experiences of the previous years (2021-2015) even with a relatively smaller number of students.
