The EEC met remotely with the head of the institution, the head of the relevant department, the programme's coordinator, members of the academic staff, members of the administrative staff, students and/or their representatives and the Internal Quality Assurance Committee.

Additionally, the EEC remotely examined the institution's facilities (library, computer labs, labs, teaching classes, research infrastructures, etc.), various documents presented and/or requested by the EEC, the School's/Faculty's structure and the programme's position in it, the CVs of the teaching staff and their relationship to the institution as teachers in regard to any other duties and teaching.

CYQAA Council's Decision

The Council of the Cyprus Agency of Quality Assurance and Accreditation of Higher Education, during its 82nd Summit on 16/05/2022, according to the Article (20)(2)(f)(i) of the "Quality Assurance and Accreditation in Higher Education and the Establishment and Operation of an Agency on Related Matters Laws" of 2015 to 2021 [L. 136 (I)/2015 - L. 132(I)/2021], and on the basis of the suggestions of the External Evaluation Committee and the comments of the institution on the External Evaluation Committee report, **decided that the programme is accredited to be delivered in English and Greek.**

Based on the recommendations of the EEC, the institution should provide evidence of compliance with the following, no later than the Fall Semester 2023-24:

- Enhance and promote the research and the publication activities of the faculty.
- The institution should create processes to help academics to bridge their teaching with research.

Academics should apply the best formula for them taking into account the nature of the programme so that they dedicate enough time both to their research and to their teaching process. It is proposed for the academics to combine these two separate parts and create value for them, for the programme and for the institution after all.

More importantly, provide incentives for networking with researchers from other universities in Europe to participate in European-funded projects, to gain experience in autonomous research.

The current accreditation begins in the Spring semester of the academic year 2021-2022 and ceases to be in effect at the end of the Fall semester of the academic year 2026-2027.

On the basis of Article (4) of the relevant Legislation, it is noted that "the above accreditation is valid for the period provided by the provisions of the Law and is repeated every five (5) years and that the procedure starts at the request of the institution, which must, and shall be submitted at least sixteen (16) months before the expiry of the previous accreditation".

Additionally, on the basis of Article (17)(3)(g) during the period of validity of the Accreditation, the Agency acting of its own motion, may examine whether the criteria continue to be met and if they are not met, then the Agency shall revoke the Accreditation, and immediately inform the institution concerned.
