Re: Decision by the ECTE Accreditation Commission (AC)

Dear Colleagues,

The AC in its September 16 session deliberated on the review of ETS as a Micro-Credential Provider based on the Final Review Report following a sit visit (February 10-12, 2025) and considering your additional representation submitted in August 2025.

The AC confirmed compliance with two suggested requirements in the Final Review Report:

MCP 4: Submit a micro-credential certificate template and one example according to the standard format.

MCP 8: Submit drafts of micro-credential information and establish a timeline for publication, including micro-credential offerings, integration into a lifelong learning strategy, and admissions and registration information.

The AC upheld one requirement as suggested in the Final Review Report, requesting specific mention and mapping to the QF-EHEA descriptor(s):

MCP 2: Design a micro-credential curriculum map that specifies at least one micro-credential along with corresponding QF-EHEA and other outcomes. Although the map outcomes align with QF-EHEA standards, they do not specifically correspond with them.

Additional representation demonstrating fulfilment of this requirement may be submitted to the AC at any time but no later than December 31, 2025.

Micro-credential Provider Accreditation can be granted only after all requirements have been fully met and approved by the AC.

Please refer to the Final Review Report for all recommendations issued by the Visiting Evaluation Team and confirmed by the Accreditation Commission.

Until full compliance is achieved and confirmed by the AC, the institution will be listed as “under review” on the ECTE website directory for Micro-credential Providers.

Please do not hesitate to contact me as questions arise.

Cordially in Christ,

Carmen Crouse
Accreditation Director
