1. The Register Committee considered the Substantive Change Report of 2023-03-01.
2. The Register Committee took note that HCERES started to implement the European Approach for Quality Assurance of Joint Programmes and that the agency has already completed two procedures.
3. The Committee further noted that the agency has published the results and decision of the procedure on its website.
4. Given that HCERES uses the European Approach without substantial modification, the Register Committee was assured that the ESG are complied with. **The Committee nevertheless expects that this activity be analysed in full as part of HCERES's next review for renewal of registration.**
