De NVAO stelt vast dat in het visitatierapport deugdelijk en kenbaar is gemotiveerd op welke gronden het panel de kwaliteit van de opleiding voldoende heeft bevonden.

Advies van het visitatiepanel

Samenvatting bevindingen en overwegingen van het panel.

Standaard 1: Beoogde eindkwalificaties

De opleiding ontvangt voor standaard 1 het oordeel voldoende.

The master's programme Business Administration is a big programme that has changed considerably since the previous accreditation visit. The panel considers that the current programme relies on a strong structure and features an attractive profile.

Pagina 2 van 6 According to the panel, the intended learning outcomes are sufficiently concrete with regard to content (business administration), level (master) and orientation (academic). They address relevant competencies in both general and specialist areas of business administration. The programme outcomes are also in line with the subject-specific reference framework for the business and economics disciplines. The panel considers that the programme's aims are adequately reflected in its learning outcomes and thinks highly of the internal monitoring process involving programme staff, coordinators and management.

The panel is satisfied that the adoption of the AoL philosophy is facilitating the update of the learning goals and considers that those involved are performing this exercise adequately. The panel has noticed that internationalisation is addressed in a comprehensive way throughout the FEB and that this master's programme itself has a distinctly international flavour. However, this important strategic objective is not yet reflected explicitly in the programme aims, hence the suggestion to consider including internationalisation in the intended learning outcomes of the MSc Business Administration.

Standaard 2: Onderwijsleeromgeving

De opleiding ontvangt voor standaard 2 het oordeel voldoende.

The panel considers that the curriculum of the master's programme Business Administration is coherent and offers plenty of opportunities for students to compile their own curriculum in various specialist fields. The panel appreciates the efforts of management and staff to align the learning goals of individual courses with the programme learning outcomes using the AoL approach. Across all tracks, students get proper training and supervision to prepare a thesis at master level. Moreover, the panel welcomes the interaction with the business practice in several parts of the curriculum.

According to the panel, the programme features a clear but highly selective admission procedure which contributes to the programme's stated objective of offering a challenging curriculum for high quality students. In terms of feasibility, the panel considers that the study load of the programme is spread evenly. The structure and requirements of courses encourage students to dedicate sufficient time to their studies. Moreover, stricter supervision arrangements and delivery deadlines have been introduced in the thesis process. The panel joins staff and students in applauding this initiative as it keeps students focused on the thesis and reduces study delays.

The panel considers that the FEB is attracting staff from all over the world, which results in a group of strong faculty supporting both the research and pedagogical objectives of the FEB and its degree programmes. The panel has received detailed information on the staff and considers that sufficient and appropriate faculty have been assigned to the master's programme Business Administration.

According to the panel, facilities at FEB are adequate. The panel has visited the recently renovated FEB buildings and understands that students and staff now like to spend a considerable part of their time on campus. The FEB puts several counsellors at disposition of its students offering a wide range of social, personal and curriculum-related services. Moreover, the panel noticed that student associations are prominently present on campus. In addition to leisure activities, they facilitate among others placement opportunities within and beyond the curriculum.

Pagina 3 van 6 The panel supports the FEB's intention to further increase the level of satisfaction with support services and facilities and suggests surveying if services and facilities meet specific student expectations and needs.

Standaard 3: Toetsing

De opleiding ontvangt voor standaard 3 het oordeel goed.

In terms of assessment, the panel is positive about the efforts undertaken at central university level and about the way this central policy has been translated into guidelines for assessment at FEB. In the discussions with students, lecturers, staff and programme directors, the panel has noticed that this is not only a policy that looks good on paper, but that its provisions are effectively implemented in the day-to-day reality of the programmes: staff is trained and supported to design state-of-the-art assessments; information on exams is made available in time; lecturers provide relevant feedback on assignments; students appreciate the thesis supervision and the transparency of the thesis evaluation process. The panel also noticed that AoL is used to enhance the quality of assessments and encourages the programme to continue its efforts in this area.

The panel considers that the thesis evaluation is organised adequately. It welcomes the joint assessment by the supervisor and an assessor, and appreciates the existence and systematic use of a standardised evaluation form. Moreover, assessors provide proper feedback to the students on the quality of the thesis and on the motivation of the final grade. As this feedback is often communicated informally to students, the panel suggests that all evaluation forms, as official transcripts of the thesis assessment process, contain proper feedback with key arguments underpinning the assessors' overall score. Finally, the sample of theses reviewed indicates that the assessment is done meticulously: for each individual thesis, the panel agrees to the score given.

All FEB degree programmes, including the master's programme Business Administration, are covered by one independent Examinations Board, which fulfils all the requirements set by Dutch law. Further to the discussion during the visit, the panel is confident that the Examinations Board is handling its tasks competently.

Standaard 4: Gerealiseerde eindkwalificaties

De opleiding ontvangt voor standaard 4 het oordeel voldoende.

Regarding the achieved learning outcomes of the master's programme Business Administration, the thesis panel indicated that all theses are of fine quality and cover an interesting diversity of topics, research questions and methodological approaches. Students have a clear understanding of what is needed to do research, draft a thesis and contribute to the scientific domain. Having established that all theses studied were at least of acceptable quality, the panel considers that the intended learning outcomes of the master's programme are eventually achieved at the end of the curriculum.

According to the panel, this master's programme offers competencies that are needed on the labour market: on average Business Administration alumni find a first job within six months earning more than their fellow university alumni.

Eendoordeel

Het panel beoordeelt, de beslisregels volgend, de opleiding als geheel als voldoende.
